

*New life for your septic system - In one day
Without disturbing your lawn!*

TERRALIFT'S ADVANTAGES

- Unclogs your septic system without disturbing your lawn.
- Performs faster, cleaner and easier than current methods. The work can be done even if the field is wet, and you can use your plumbing almost immediately.
- Reduces your cost, and gives new life to your septic system.
- Terralift does not use chemicals, and it will not pollute your property.
- Ideal for use in other areas where water is a problem, such as athletic fields.
